WORK EXPERIENCE

Software Development Projects

March 2025 - Present

AssignmentAI: Full-Stack AI Application | TypeScript, OpenAI API, Supabase, Vercel

- Built and deployed a full-stack AI application that helps teachers to generate assignments for their students, integrating the OpenAI API with Supabase for AI-powered functionality and data management.

Alyne: Mobile Marketplace | TypeScript, React Native, Expo, Supabase

- Developed and deployed a two-sided mobile marketplace connecting local wellness providers with clients, implementing provider profiles, booking workflows, and client activity tracking with a TypeScript/Supabase backend.

QuadWear: E-Commerce Platform | Next.js, TypeScript, Stripe, Vercel

- Built and deployed a production e-commerce storefront with product catalog, shopping cart, and Stripe payment integration, using Next.js and TypeScript and hosting the application on Vercel.

Math Tutor, Mathnasium Learning Center, Alexandria, VA

April 2022 – October 2023

- Used positive reinforcement, repetition, and review to help students improve their average math grade by 15%
- Supported up to 12 students consecutively with helpful study habits and exam strategies
- Created and shared math resources and materials to boost student comprehension
- Utilized diverse teaching strategies and resources to help students better understand math concepts

EXTRACURRICULAR ACTIVITIES

Sprinter, Hayfield Track & Field, Alexandria, VA

February 2024 – May 2024

- Trained 5 days per week to improve sprint speed, explosiveness, and endurance
- Competed in 10+ races representing Hayfield in sprint events
- Improved sprint technique by practicing starts, acceleration, and form mechanics
- Collaborated with teammates and coaches to strengthen relay coordination and performance
